IBC Spill Pallet

FEATURES

- Single IBC spill pallet can be used with or without grid deck
- Fully recyclable, chemical resistant, UV-stabilised PE
- Platform with hand inserts and holes for inspection & pump insertion
- Capacity meets/exceeds European, UK and US regulations
- Central support always to be used when platform in place
- Easy to maintain and clean
- Compatible with most forklifts and pallet trucks, use extensions when needed
- Remove IBC and empty spill pallet before moving
- Solid construction
- Ergonomic design

Robust secondary containment for one IBC. Compatible with most common IBC designs. Weatherproof and rust free for indoor or outdoor use. Suitable for storing IBCs in production areas, as emergency containment for damaged or leaking bulk containers or for routine storage of IBCs. Clip-on decanting well available separately.

This unit complies with the Oil Storage Regulations for outdoor storage of 1 x 1000L IBC
