

Code: BP4C

Covered 4-drum Spill Pallet

FEATURES

- Suitable for outdoor storage of up to 4 x 205L drums
- Weatherproof cover keeps rain off drums and prevents sump filling with rainwater
- Capacity meets/exceeds European, UK and US regulations
- Roll-up door to front of cover provides easy access to drums for decanting, pumping etc.
- Removable grid-deck for easy cleaning
- Forklift pockets - easy to relocate
- Remove drums and empty sump before moving
- Solid construction
- Ergonomic design

Robust secondary containment for up to 4 x 205L drums. Weatherproof and rust free for indoor or outdoor use. Suitable for storing drums in production areas, oil and chemical stores, for routine storage and as emergency containment for damaged or leaking containers.

This unit complies with the Oil Storage Regulations for outdoor storage of 4 x 205L drums
