

Bonded and Perforated Oil & Fuel Absorbent Pads

Maximum absorbency without waste, easier to deploy and clean-up than indiscriminate, loose granular material.

Suitable for use in workshops, production areas, maintenance facilities, forklift oil stores, refuelling areas and any situation where leaks and spills occur.

Hydrophobic properties (**will not absorb water**); these products can be used outdoors in wet situations to absorb oil based liquids without absorbing rainwater.

Features

- Sonic bonding for extra strength
- Superior grip for maximum safety
- Perforated for easy tearing across width of pad
- Safely absorb oil, fuel and solvent
- Four weights:
Quad Loft
Premium Weight
Double Weight
Single Weight
- Packaging: boxed for easy storage or poly-wrapped to reduce packaging waste

Applications

- As a workmat to catch and absorb drips and leaks
- Alternative to loose or granular absorbents that are indiscriminate and time consuming to clean up
- Under and around machinery, equipment and vehicles to absorb leaks and spills on contact
- Contributes to a pro-actively safe and clean working environment

PADS | Bonded and Perforated 40 x 50cm

Quad Loft

Code	Packaging	Qty.	Absorbs
OPQL	Poly-wrapped	100	120L

Premium Weight

PLAIN Oil & Fuel Absorbent Pads

Maximum absorbency without waste, easier to deploy and clean-up than indiscriminate, loose granular material.

Suitable for use in workshops, production areas, maintenance facilities, forklift oil stores, refuelling areas and any situation where leaks and spills occur.

Hydrophobic properties (**will not absorb water**); these products can be used outdoors in wet situations to absorb oil based liquids without absorbing rainwater.

Features

- Fast wicking action to rapidly absorb spills and leaks
- Plain finish for premium economy
- Safely absorb oil, fuel and solvent
- Three weights:
Premium Weight
Double Weight
Single Weight
- Anti Static version (OPS1/AS)
- Packaging: boxed for easy storage or poly-wrapped to reduce packaging waste

Applications

- As a workmat to catch and absorb drips and leaks
- Alternative to loose or granular absorbents that are indiscriminate and time consuming to clean up
- On workbenches to contain and absorb leaks from oily components
- Contributes to a pro-actively safe and clean working environment
